

processTrek Pricing

Overview

processTrek is a process service management software system which automates tracking of process services performed within your jurisdiction.

Software License

A software license is required to use **processTrek** which is sold under a site license that carries a single, one time, license fee. It covers all computers situated in a single location.

The site license limits the number of service records that can be created per **month**. A single service request can contain multiple respondents.

Please contact our office for help with choosing the license that is the best fit for your office.

	Monthly Limit	License Fee	Maintenance (annual)
processTrek 50	50	\$1,500	\$270
processTrek 100	100	\$2,250	\$405
processTrek 200	200	\$3,000	\$540
processTrek 500	500	\$5,250	\$945
processTrek Unlimited	Unlimited	\$7,500	\$1,350

Support

Maintenance Plan

We offer a maintenance plan that includes phone support and software updates. The plan is setup on an annual basis; yearly costs are listed in the table above. The plan is optional.

Per Incident

Support is also available on a per incident basis. The cost is \$75 per incident with a 30 minute limit. The cost of additional time is \$75 per 30 minutes. Software updates will be available for an additional fee.

Email

Questions can be submitted via email at no cost.
