

tcrMarriage Pricing

Overview

tcrMarriage is a software application used to collect marriage license application information. It prints the Application and Certificate. Upon completion of the marriage license processing it electronically uploads the application data to the State of Colorado; this in lieu of mailing a copy of the application in to the State.

.

Software License

A software license is required to use tcrMarriage. The one-time cost of a license is \$2500.

Software License.

The Licensee is granted a nonexclusive, non-transferable, limited license to install and use the tcrMarriage software on any computer located on the Licensee's LAN (local area network) or WAN (wide area network). This license is limited to sites and computers owned by the Licensee. This license does not allow or provide for use of the tcrMarriage outside the Licensee's office.

Installation & Training

Remote installation and training is included at no additional cost.

Maintenance

Annual maintenance provides support and software updates. Support includes phone support via a toll free phone number.

The cost of Maintenance is \$450 per year.
